Hi, Wilmer,

While EPA supports the effort to reach agreement on a COC list for the Proposed Plan for the DePue site, EPA does not believe that a meeting with you to discuss the COCs for the site would be beneficial at this time. Illinois EPA is the enforcement lead for the site. With that in mind, EPA is not prepared to take a position with respect to what contaminants should be COCs at the DePue site. EPA is awaiting an agreement between Illinois EPA and the PRPs on a list of site COCs. If the list is scientifically sound and appropriate for the Proposed Plan, EPA will be in a position to concur with the proposed remedy.

Please let me know if you have any other questions or would like to discuss further.

Thank you,

Jennifer Elkins, PE

Hi Jennifer,

Just wondering if you have been able to coordinate at your end some dates for a possible meeting.

Thanks,

Wilmer

Wilmer:

I will forward CBS's request to meet with US EPA to the new US EPA remedial project manager for the DePue site, Jennifer Elkins. She is cc:ed on this email.

Thanks

Subject: DePue call

Colleen,

As you know, CBS continues its discussions with IEPA regarding the final list of COCs to be carried into the Proposed Plan for DePue. We would like to have the opportunity to discuss with you and Joan our rationale for proposing the delisting of manganese as a COC for DePue. I would appreciate if you let me know your availability for a call.

Thanks in advance,

Wilmer
